- Prices directly above use our highest quality **natural sponge** rubber base.
- **New 90% Recycled Rubber base** is available and is our most requested new item over the last few years!
- The **"UltraThin"** pads are also available and are about the thickness of a credit card. They have a **'peel & place'** feature that keep the lightweight pad from slipping. Once you peel off the outer sheet, the mouse pad is slightly tacky/sticky. It will leave no residue behind, and you can easily re-position the pad at any time.

Medium Duty Rubber

Best prices! Great performance!
